***To submit electronically, see SAMPE web page
www.sampe.org, for the abstract submittal form.***

A 100-200 word abstract along with the Abstract Submittal Form (see below) should be submitted not later than **September 12, 2002**. It can be submitted electronically. The abstract should give the objective, results, and significance of the study to allow assessment of the proposed presentation. Acceptance of the abstract does not constitute acceptance of the paper. Upon acceptance of the abstract, the SAMPE International Business Office will provide instructions in regard to paper preparation. Final papers must be submitted by **January 14, 2003**. After review, the author will be advised as to the paper's acceptance or any changes suggested and requested. Presentation of the paper at this meeting is contingent on its publication in the preprint volume. **Previously presented or published papers will not be accepted.** Provisions will be made for special or closed sessions for presentation of sensitive material subject to FEDD and other similar contractually limited dissemination policies. These "closed papers" will be published in a separate volume with distribution strictly limited to FEDD requirements and will be available only at the meeting site.
